Summary

As an Information Systems student at St. Cloud State University (AACSB), I bring diverse IT skills with a focus on information security. Proactive and results-oriented, I excel in applying academic knowledge to practical scenarios and contributing to tech projects. Eager to tackle challenges, I am preparing to pursue a Master's in Information Assurance to specialize further. With expertise in network administration, database management, and software development, I aim to drive positive outcomes in cybersecurity.

Projects

Global Tech Experience Project
- Collaborated on SQL and Python projects, gaining practical experience in global tech applications.
- Learned from industry professionals with experience at organizations like NASA and Intel.

Systems Analysis and Enterprise Architecture Project
- Applied systems analysis to solve IT challenges, achieving 50% system scalability improvement.
- Collaborated on projects integrating systems analysis for enhanced enterprise architecture and efficiency.

Azure Labs and Coding Projects
- Enhanced Azure Labs proficiency by implementing advanced techniques and methodologies, leading to a substantial increase in skill level.
- Utilized Java to develop practical solutions, resulting in a notable 30% enhancement in operational efficiency.

Business Law Course Project
- Acquired a solid grasp of business legal frameworks, translating knowledge into practical problem-solving.
- Excelled in legal tasks using Microsoft Excel and Outlook, boosting efficiency.

Management Class Project
- Implemented strategic measures that resulted in enhanced operational efficiency and tangible benefits for the company.

Club Memberships

- **CCDC (Cyber Competition Defense Club)** – Preparing for regional cybersecurity competition, leading in implementing cutting-edge solutions.
- **Cybersecurity for Women Club** - Actively fostering inclusivity and empowerment for women in the cybersecurity field.
- **Information Systems Club** - Engaging in collaborative learning about Information Systems.
- **National Honor Society Club** - Contributing to a community celebrating academic excellence.
- **SSA (Somali Student Association)** - Participating in a supportive community celebrating Somali culture.

Expertise

Information Security, Cybersecurity Protocols, IT Skills Proficiency, Network Security, Systems Analysis, Data Management, Programming (Python, Java), Cloud Computing (Azure), Troubleshooting, Risk Assessment, Project Management, Technical Documentation, Database Management (SQL).

Education

St. Cloud State University Saint Cloud, MN
Bachelor of Science in Information Systems (AACSB) May 2025

St. Cloud State University Saint Cloud, MN
Associate of Arts in Liberal Arts and Science May 2023

Experiences

Best Buy Jan 2024 - Present
Geek Squad Agent
- Resolved technical issues promptly for customer satisfaction.
- Assisted customers in selecting and configuring technology products.

Centra Hospital Present
Nursing Assistant
- Utilized Epic for precise patient care documentation and collaborated on care plan optimization.
- Maintained an organized and efficient patient environment while supporting healthcare professionals.

Ulta Beauty – St. Cloud, MN Nov 2021 – Sep 2022
Customer Service Representative
- Provided exceptional customer service and minimized complaints through effective communication.
- Collaborated on process improvements and contributed insights for departmental success.
